RECORDS OF FORT ST. GEORGE

LETTERS FROM FORT ST. GEORGE. 1763

VOLUME No. XXXVIII

No. 1.

To Thomas Heath Esqr.
Chief of Vizagapatam.

Sir

We have received your Letters dated the 24th. Novr. and 5th. December but as you had not then received the Letter We wrote of the 24th. November, We shall say no more at present on the Subject of your Investment than to direct that you order to be provided at Uppara or such part of the Country where you may judge they may be best executed,

			Covds.				
500	peices of plain Beeteelas	of	32	long	and	2	Broad
200	peices of flowered	Do.	32	..		2	..
200	Do.	Do.	for Handkerchiefs.				

These last mentioned must be wove with Borders with sixteen Handkerchiefs in the Peice and each Handkerchief must be something less than 2 covids Square —We say nothing as to the price of these more than to let you understand that We expect not to have so much Writing on this occasion as we have had upon the other part of your Investment. These Beeteelas are to be the best your Merchants can make and the Thread must be even and well twisted.

Your accounts have undergone an Examination by a Committee appointed for that purpose, and you have herewith Copy of their remarks thereon, by which it appears that there are sundry Charges from January to October amounting to Pagodas 485–5–10 more than you had Authority to make by the Regulations sent you in November 1761, which sum must therefore be repaid into the Companys Cash.

The Serjeant Major at the Head of your Gun Peons must be paid in future nine Pagodas a Month only, that being the pay ours receive here. The Names of your Military or Artillery Men must be inserted monthly in your Accounts.

Besides the Charges of Provisions and Batta given to the Vacqueels of different Rajahs there is a charge every Month of eight or ten Pags. for Batta to & from Sundry Places. Your connections or Correspondence with the different Rajahs cannot be so great as to swell your Accounts much, if the particulars are mention'd Monthly and We direct therefore that they be so when we shall be better able to Judge also whether those Charges are necessary.

Five Pagodas is the sum we pay here to an European who enlists, or renews his Time for three Years, you must therefore pay no more, and in future the Man's name must be inserted in your Accounts with the name of the ship he arrived in and the year when, indeed as it is not our Intention to add to the Number of Men with you, it wou'd be more agreable to us to have all deserters that may come to you sent hither and you must never inlist any such People 'till you have advised us who they are.

There appears also to be charged in your Accts. 6 Packers Monthly instead of the two we permitted you to keep, and in our Letter of the 27th. January last Year. We direct therefore that you repay also into the Company's Cash the

Amount of the Wages of those four Men from the first of January last to the time you receive this We say from the first of Janry. as by our Orders of the preceeding November you had no Lyberty to keep any. now We will endeavor to put you into a Method to form your Accounts so as to save us such trouble as we have lately had. You must Sir, upon the receipt of this turn back to your Accounts for the Month of December 1761, and to our Orders sent you the Month before, you are then to Form therefrom a Months Account of your Expences, and you are to let that be the standard.

If your Accounts for the last Month are not made up before you receive this, We expect that they are made out conformable to the following Method Viz^{t}.

Charges Diet as ℔ month's Acc^{t}. December 1761	..P^{s}. 500	
Exceedings in this Charge for the present Month by Mr. B and Co two Company's Servants sent hither from Madrass	20	
		520
Charges Garrison as ℔ Month's Acc^{t}. Dec^{r}. 1761 ..	600	
Decreased this Month by the Desertion of 10 soldiers by name AB &c^{a}.	30	
		507

The above must be sufficient to explain to you in what Manner We wou'd have your Accounts kept, and you are to lose no time in setting about this Material Service.

With your next Month's Account you must send us up that which you ' form ' for December 1764, agreable to our above Instructions, that We may keep it by us to compare with all others We may Receive.

To John Pybus Esq^{a}.
Chief of Masulipatam.

Sir

We have received your Letters dated the 15th. and 22^{d}. of December, together with the Estimate of the Losses you judge the Salt Farmer must sustain, by the severe Storm which has lately happened with you, and We are the more concerned at this as you apprehend he will not be able to pay what he is indebted to the Company, you must notwithstanding secure to them as much as you are able.

When you have made an Estimate of the Expence of repairing the Damages occasion'd to the Works by the late Storm you may send it to us Though We see little probability that it will be ever carried into Execution.

You have herewith a List of the Investment not already ordered to be provided at Masulipatam and Bandarmalanka this Year,—You must pay due Attention to the remarks made therein.

Conformable to the Directions of the Company Notice shou'd be given what quantities and kinds of Goods are required that Proposals may be made by the different Merchants for the Provision of them, you must therefore lose no time in giving this Notice.

We send you Musters of our Madrass Morees, & also some Peices which were made lately at Bandarmalanka with the Assistance of these & the Remarks made on them We hope you will be able to establish this Manufacture, the Numbers of Peices against each Sortment is conformable to our Honble Master's List of Investment and of all which We wou'd have you procure what Quantity you can, We do not however intend to desist from contracting for the usual Quantity here, at least till We have had some Experience of what may be provided in your Neighbourhood.

You may receive what Chay goods the merchants have brought in over & above their Contract, provided they are equal to Muster.

The Accounts of your settlement from the 1st. of December 1761, to the 31st. of October last having undergone the Examination of the Committee of Accounts you have herewith their Remarks on them with the Orders passed in Consequence.

Sir

We can say nothing in answer to your Merchants Petition of the 21st. January relating to the Turn'd Out Cloth more than to refer you to what we wrote the 8th. of December, and to acquaint you that the Abatement to be made on such as you shall take in must be ten ℔ Cent.

Our Letter of the 8th. December says that you must make the Merchants pay double Duty upon such of the turn'd out Cloths as they shall take out of the Warehouse, we would not have you understand by this the [*sic*] we mean such as they had the last Year for as previous Notice was not given them they would with reason Complain, but you must make them acquainted that all which they bring in in time to come that shall be rejected by you for being short in measure, or badly Manufactured, shall be Taxed with the double Duty before mention'd.

We shall this day send you a supply of thirty thousand Pagodas.

No. 10.

To Charles Turner Esqr.
Chief at Cuddlore.

Sir

For the more regularly conducting the Business of the Company's Investment, we have resolved that every Years Investment or Contract with the Merchants be concluded the 31st. of January, and that the Investment for the next Year Commence on the 1st. of February. That in the Contract with the Merchants two terms be limitted for the delivery of their Goods Contracted for, one part before the 1st. of August, and the remainder before the 31st. of January, & if at the expiration of the last term the Merchants should not have delivered in Cloth to the full amount of the Advance made them, their Accounts must be closed & the Ballance paid in ready money, this done they may engage in fresh Contracts. but not otherwise.

We have great reason to think that the Merchants have been less solicituous to bring in Cloth equal to the Musters by which they Contract, because they

have been indulged with the Liberty of selling the turned out Cloth free of Custom & possibly may have made greater gains by the rejected Cloth than by that which has been taken in; to prevent this in future, we have agreed with our Merchants that all the Cloth which shall be rejected shall pay a double Duty to the Company, and this you also must observe as a Rule not to be deviated from on any Account, as we have already advised you, you must therefore acquaint your Merchants of this our Resolution; as well as that all Cloth short of Measure either in Length or Breadth is also to pay a double Duty as often as it is found deficient in either.

Enclosed is a List of Goods to be provided by you for the Current Year to be reckoned from the 1st. Instant to the 31st. January 1764, On receit of this you will call your Merchants together & acquaint them that we are firmly resolved to put the Investment on the most advantageous footing for the Company that the Circumstances of the Country can possibly admit of, and that if they are not willing to engage on such terms we shall endeavour to find others that will, receive from them proposals, which must by no means exceed the Prices of last Year, on the Contrary we expect an Abatement, but if it should be necessary to continue the last Year's Prices, the Quality of the Cloths must be very considerably mended, This observation respects the Goods of every kind, but in regard to the Blue Cloth Midling, We must particularly take Notice that the Price is too large; Upon reference to our Books from the year 1749 to 1758 We find that the No. 1 has indeed sometimes Cost Pag. 61 ℔ Corge including the Charge of dying, but we also find that it has oftener been Invoiced, Vizt. No. 1 @ 46—No. 2 at 45 & No. 3 @ 44 sometimes half a Pagoda ℔ Corge less and Pags. 13 ℔ Cargo for dying & these were the Prices in 1756, 1757 and 1758, We therefore expect to have this Article reduced at least to the old Prices.

The Advance to be made to the Merchants this Year is to be in the same proportion as last Year that is to say 25 ℔ Cent on the full value of all the Cloth Contracted to be delivered in the Year, this sum is to remain in the Merchants hands as an Advance, they are to be paid for their Cloth as they bring it in and the Advance is to be reckoned in payment of the Cloth brought in to close and Compleat the Contract.

We wrote to you the first Instant that you might take in such of the Merchants turned out Cloth as answered in length and breadth at an Abatement of 10 ℔ Cent some of this cloth we think might answer for dying such of it therefore as may be proper for that purpose must be dyed but we cannot help repeating that We are not satisfyed with the last Years Price of Ps. 15. ,, 18 ℔ Corge for dying.

As soon as you have received proposals from your Merchants you must transmit them to us and wait for our Directions thereon.

We are

No. 11.

To John Pybus Esq^r^.
Chief at Masulipatam.

Sir

We have received your several Letters of the 19^th^. 23^d^. & 25^th^. January to which we shall now reply.

But first we must inform you that it is our earnest desire that as nearly as possible the same general plan be pursued in all parts in the Provision of the Company's Investment. These general Rules are to be observed, viz. that the Contracts with the Merchants for the Year's Investment commence the 1^st^. of February and end the 31^st^. of January, of the next Year that two Periods he (be?) fixed for the delivery of the Cloth contracted for, that is to say one part before the 1^st^. of August and the remainder before the 31^st^. of January, that twenty five ℔ Cent be advanced to the Merchants on the Value of the Goods they Contract to provide in the whole year if you think them responsible Men which advance is to remain in their hands untill the Conclusion of the Contract, that the Cloth they bring in from time to time be paid for as it is sorted and accepted, and that the Advance be accounted for in the last parcells of Cloth brought in before the 31^st^. January, the Merch^ts^. accounts are then to be closed & if the Cloth received should not amount to the full value of the advance the Ballance is to be paid in ready money, and a new contract and advance may then be made for the succeeding Year. Some Part of these Directions have been sent you before, but we repeat them here that you may see at one View the Plan we wish to have observed, pursuant hereto all the Goods that shall have been delivered in by your Merchants before the 31^st^. of January must be deemed the Investment of last Year, and their accounts must in manner above directed be adjusted to that time, and such Goods as you shall receive afterwards must be reckoned a part of this Year's Investment.

You observe that notwithstanding the great Difference made in the Prices of the several sortments of Cloth between N^o^. 1 & 2 in order to promote the Improvement of the Manufacture, the Merchants bring in chiefly the two lowest Numbers of the fine & ordinary in which they find their Account, as the lower Numbers contain proportionally a less number of threads or Punjums, to remedy this, you recommend, that in future Contracts the Difference should only be in the Prices of the several Numbers of each sortment, and not in the Punjums but that all which shall be brought in of each sort, shall be of one established Punjum. The Method we follow here differs from what you propose only in this, that instead of paying the Merchant Different prices for the three Numbers we contract by a Muster of each Sortment for only one Price of one sortment that is to say one Price for fine, one for Midling and one for Ordinary and all the cloth which proves remarkably inferior to the Muster upon sorting it brown should be rejected, and then the Cloth accepted upon such sorting after being washed is sorted into three Numbers for the Companys Account and this is the Method we intended should have been pursued at the Northern settlements, as you will find by our Letter of the 14^th^. May wherein we direct that the

12 Call Cloth or 24 Punjums consist of 2880 Thread.
9 Call Cloth or 18 Punjums consist of 2160 Thread.
8 D^o^. 16 D^o^. 1920 D^o^.

but the Merchants as We understand refused to Contract in this Manner and offer'd proposals to provide Cloths of different punjums at different prices for each Number of Punjums, and we were at last obliged to accept of the terms as you find them, because the Merchants would not comply with those we proposed, for it is contrary to our Inclination to receive any Cloth inferior to 16 Punjum.

If therefore you should now find it practicable to introduce the method we use here, we would by all means have you do so, and in that Case your Contracts must run thus.

Ordinary or	16	Punjum Cloth at	M.P. 36	℔ Corge
Midling or	18	Dº.	48	Dº.
Fine	24	Dº.	60	Dº.

and upon sorting the Cloth Crown all that shall appear inferior to Muster should be turned out, and may afterwards be taken in if we shall think it proper at such an Abatement as may be judged proportionate to the Inferiority of its Quality, or if we should not think fit to take it at any rate the Merchant must then be charged with a penalty of 10 ℔ cent on the value thereof to the Company. As they must also for all Cloth short of Measure either in length or breadth, which must on no Accoᵗ. to be taken in this Condition our Merchants here have submitted to, and is absolutely necessary to prevent their making use of the Company's Advance to provide Cloths which they know must be rejected, and which they afterward may sell for Gain to private Merchants, but if you should find it impossible to introduce this Method, we should even prefer to the present Terms, the Plan you propose of fixing one Number of Punjums for each sortment as above viz. 16–18– and 24 Punjums sorting each into three Numbers for the Merchant's Account, at a different price for each Number provided those prices be equally advantageous to the Company concerning which we desire you will write us particularly after having discursed with your Merchants. In the mean time we would have you proceed on the former plan that the Provision of the Investment may not be retarded.

In our Letter of the 5ᵗʰ. January we sent you a List of such of Goods to be provided as had not already been ordered on account of this year's Investment, as we intend this Letter to be a general Guide to you in the whole Year's Investment for the sake of regularity we now enclose a Compleat List of all the Goods we would have provided at Masulipatam and Bandarmalanka from the 1ˢᵗ. of this Instant February to the 31ˢᵗ. of January 1764 to which we refer.

In respect to the Contract you propos'd to make with Lachum Chitty Erapah for Superfine Long Cloth &cª. we can only say that should the Qualitys be answerable to the Prices we shall approve it as the Quantitys & Sortments correspond exactly with our Directions, the Musters you promise to send us will enable us, when we receive them, to determine.

The usual Presents to the Merchants may be continued as well as those to the People attending at the Rivers, Collectors of the Revenues Circar Officers &cª. But we cannot at Present fully comply with your Indent, the non arrival of the Walpole (on which ship the Woollen Goods for this Presidency were laden) leaving us extreamly bare of the Articles you desire, such as can be spared shall be sent you.

Such Warehouses and other Buildings at Bandarmalanka as are really necessary and proper for carrying on the Investment Lodging the Bales &cª. must undoubtedly be Repaired or New ones Built, but first you will direct a Plan and Estimate to be made which you will transmit to us with such Information as may enable us to give you our Directions thereon.

The Washing Stones you Indent for shall be sent by the first Conveyance.

We shall also take the first safe Opportunity to furnish Mʳ. Heath with ten thousand Madrass Pagodas or more.

Mʳ. Richard Brickenden has our Permission to return to this Place agreeably to his Request, and we have appointed Mʳ. George Dawson to assist you in his stead.

The Apollo Ketch safely imported here, and we have landed 150 Bales from Bandarmalanka & 22 Bales of Chay Goods from you, which have been examined and we desire you will acquaint Mʳ. Dolben he has given us great satisfaction in the Care he appears to have taken in the Investment.

The Long Cloths Fine & Midling tho' good we hope may be improved, the Long Cloth Ordinary is better in Proportion to its Price.

Finding the Chay Goods so much better and cheaper than of late years, we now order you to provide double the quantity, but to receive none of the N°. 3ˢ. The Romalls provided last year are chanked and conjee'd which is contrary to the Company's orders.

Our Allejars the Company have ordered none but as the Bale lately sent us is much superiour to what was formerly provided we have order'd a few Bales and you are to be careful not to receive any of N°. 3 all the Chay Goods to be sent home being expressly ordered to be of a Bright Red.

Although two Packers only were allowed at Bandarmalanka by the Regulation made in November 1761 yet as you represent that four more are necessary for the Bussyness of the Investment you have our permission to entertain them and to charge the Number employed since the Investment has been coming in.

We have examined the several Proposals you sent us for renting the Toddy and arrack Farm, and that made by Tadapala Ramanapah, being the highest Vizᵗ. Five thousand two hundred Rupees ℔ Annum we have accepted his Offer as you inform us he was the last Renter, and is a responsible Man and we enclose a Cowle for the same.

He sailed for Allumparva the 7th. of October & after taking on board there as many shells for Chunam as suited his own Convenience left that Place for your Coast about the 13th. without giving us the least Intimation of his Designs or his reasons for deviating from the Orders he received from us.

HONBLE SIR & SIRS

We have not received any Letters from you since our last of the 29th. December dispatch'd by Tappies in Duplicate, though by private Advices we have the Pleasure to learn that our Hon'ble Master's ships the Houghton and Earl of Ashburnham are safely arrived with you.

The Osterly after the surrender of Manilha (of which you have been advised from the other Department) having been dispatch'd for China the 26th. of October on the 1st. of November met with a violent Gale of Wind in the Lattitude of 17 No. which obliged the Captain to bear away for Mallacca, from whence he was induced to return hither, as his want of Men & the Conditions of his Ship in other respects would have render'd an Attempt to proceed by the Pitt's Passage impracticable, not having any particular Employment for this ship on the Coast we now dispatch her to you in hopes that she will be able to return in time to proceed to China early the ensuing Season, & we take the Opportunity of sending by her some Cannon as you are more particularly advised in a separate Letter we have landed her Cargo intended for China except the Redwood and Lead.

As we would not have the Osterly run the least hazard of having a late passage to China we have ordered Capt. Vincent in case he shall find no Prospect of being with you by the end of the present Month to return to this Place.

The great scarcity of Grain in the Inland Country this season by the want of Rain has drove Numbers of the Inhabitants into our Bounds & threatens severe Distress unless we are assisted by supplies from the Northward, we must therefore request in case the Osterly makes her Passage that you will return her with a Cargo of Grain and take every other Opportunity which may offer of supplying us.

Agreable to your Request for Mill Stones we send by the Osterly two of 6 Feet diameter the rest shall be sent by a future Opportunity with Invoice of the whole.

The Gentlemen at Bombay acquaint us that our Honble Master's Ship Pocock arrived there the 12th. of December, which compleats the Number destin'd to their side the last Year.

Sir

We have received your Letter of the 12^th. Instant with the Monthly accounts of your settlement for January, & observe the adjustment you have been obliged to make in the Apollo's Invoice to make it correspond with your Books, It is certain that the difference of Pagodas 4–10–23 ℔ Cent is merely imaginary, but as it appears to Inhance the Price of the Investment so much we judge the more eligible Method will be upon the opening your new Books to Open Heads of Rupees and Madrass Pagodas, instead of Cash the former at 350 ℔ Curr^t. Pagodas, and the latter at 10 ℔ Cent Batta, & if at any time you are necessitated to exchange Rupees into Madras Pagodas, or Madras Pagodas into Rupees any Difference that may arise can be adjusted at the close of your Books by Batta, though we imagine this to be a Circumstance that cannot often occur, as that part of your Revenues payable in Madrass Pagodas must nearly be sufficient to carry on your Investment, and that part payable in Rupees to defray all your other Disbursements.

We depend on your hastening the Musters of the Romalls that as little time as possible may be lost in the provision of the Chay Goods.

We will not allow the 138. 13 being deducted from the Narsapore Renters Account, you will therefore compell him to pay the whole amount of his Kist.

We do not mean to confine you to the Quantities stipulated of Long Cloths and salampores; if these you may receive any Quantities that are offered if equal to Muster.

Such Cloth as the Merchants have now on hand you are to receive on the Terms of the last Contract, & the Ballance that may then remain due to the Company is to be deducted out of the quarter Part advance to be made them on account of the present year's Investment.

The Merchants have offer'd to deliver such of their Turn'd out Cloth as on Examination you shall think fit to receive, at a Deduction of three Pagodas ℔ Corge on the Long Cloth and of one and a half on the Salempores, on account of their last year's Contract you are permitted to receive it on those Terms, taking the Remarks made by our Export Warehouse keeper on a Corge of each Sortment they have sent hither, for your Guidance, The Regulatin for charging such Cloth as cannot be taken is with a Duty of ten ℔ Cent, of which you have allready been advised, is to commence with the new Investment and we would have the last year's contract closed as soon as possible.

Honble Sir & Sirs

We have received the favour of your Letter of the 17^th^. February and are sorry that a subject of so little consequence in itself as Capt. Deleas should occasion so much writing & trouble to you & to us.

We beg leave to refer you to the enclosed Copy of our Master Attendants representation concerning the Cause of the Leak which the Britannia sprung in this Road your Honour &c^{a}. will from thence be enabled to judge what degree of Credit is due to Capt. Deleas Statement of Facts.

It never was intended that the Owners should be at the Charge of Victualling the Troops sent on board the Brittannia at Cuddalore to be landed here, and if the Chief of Cuddalore did order them on board without making the necessary Provision it might be a want of attention in him but could certainly give no reasonable pretence to Cap^{t}. Delea to write to him in the rude and disrespectfull manner which he did upon that & other occasions, the truth of the matter is that it did not suit Capt. Deleas Humour to perform that or any other Service.

Whenever your Honour &c^{a}. shall find it necessary to freight any Vessels round to this Coast on the Company's Acco^{t}. if you will be pleased to send us a Copy of the agreement you enter into with the Owners, we shall be careful not to exceed the Limitation, but when you signify to us only in general terms that the Vessell is at the Company's Charge untill her return to you we are to conclude that we are at Liberty to employ her untill the Season permitt her return, In respect to the Fata Salam we have already fully explained ourselves, and can take no blame on us for the accident which happen'd to her, in regard to the Brittannia we beg you will [b]e pleased to turn back to the letter you wrote to us dated the 27th. March 1762, wherein you desire us to Freight that Vessel back to you thereby in some Measure to reimburse our Honble Masters for the heavy Expence they incur by your being obliged to Freight her to carry Stores to the squadron, this was all the Information you gave us and was what we thought sufficient to remove all doubt of our right to employ her whilst she lay here in such services as occasion required it must now rest with your Honor &c^{a}. who made and have the agreement to judge whether we have exceeded the Right the Company derived from it & if so, what recompence to make the owners, we can only that it does not appear to us that the service we employed the Vessel on were uncommon, or the Cause of any extraordinary damage to her.

The Clinton arriv'd from Bengal the 24th. of last Month and is now under Dispatch for Europe.

The Houghton came in the 6th. Instant and will pursue her Original Destination to China with all convenient Dispatch.

It is with great Concern we acquaint you that by private Advices from Canton dated the 8th. You will recommend to Mr. Dolben to encourage his Merchants in the Provision of Long Cloths for the present year's Investt. according to the terms you inform us they have agreed to.

In regard to the Ballance due from the late Farmers of the Masulipatam and Ponracca Salt, we think you had better take the salt remaining on their hands by way of security & when the Rent of the present Farm expires you will be the better able to judge how far it is likely to answer in reducing there Debt.

Sir

We have received your Letter dated the 7th. Instant.

The Cloth used for Wrappers to Your Bales must always be taken from such of the Company's Cloth as have been torn or damaged at the Wash, this is the Practise here, and the Warehousekeeper receives them at the Price they cost the Company. If care is taken we see not how the Torn Cloths can well be more in Quantity than what are used for Wax Cloth & Wrappers, (particularly in the Long Cloth Ordinary) as it is near two ℔ Cent and thô we now permit you to sell at Outcry the Torn and damaged Cloths you have on hand over and above what may be necessary for the Package of your present Bales we expect that you make the Washers pay for all the Torn Cloths over & above two ℔ Cent in future as we are persuaded it can never amount to that unless they are very negligent.

The Committee of Accounts having on Examination of your Accounts pointed out some erroneous Entries, as you will observe by the enclosed Copy of their Report, you will cause the same to be rectified in the manner they recommend.

To the Most Illustrious and Most Excellent Lord
the Earl of Ega Vice Roy and Captain
General of the Estates of India and
Counsellor of State of His Most
Faithful Majesty at Goa

May it please Your Excellency

The Supra Cargoes & Agents for the English Nation a[t] Canton, have represented to us, that in their intercourse with your settlement at Macao, they have for some time past been subjected to such Difficulties & unfriendly treatment as neither they, or We, can conceive to have their Foundation in any orders from his most faithful Majesty, or from your Excellency. amongst many other instances, they mention this, That in 1760 the senate published an Order, by Beat of Drum prohibiting the Inhabitants of Macao, to Rent their Houses to Foreigners with their Consent, and even ordered, that they should not have leave to possess the Houses they had already rented of the Proprietors, without first petitioning the Senate in a very humble manner, which Custom still subsists and is extreamly inconvenient to those who are obliged to go to Macao, and who are sometimes forced to remain in their Boats, till the senate assembles and grants their Petition, and then they are again obliged to Petition the Governor before the Proprietor of an House can admit them. This Treatment is very different from that, which is shewn to the subjects of his most faithful Majesty who trade from Macao to the English Settlements in India. We pass over many other Instances, as we do not intend this address so much by way of Complaint—for what is past, as that your Excellency being informed that the English are subjected to much unfriendly usage, and unreasonable Difficulties at Macao, may interpose your authority, to restore that harmony, and friendly intercourse which heretofore subsisted. We do not ask any thing in your Ports, but what has allways been granted in ours, and as such reciprocation is founded in reason, we cannot doubt of a favourable issue.

Honble Sir & Sirs

We have received your Favour of the 26th. of March.

Major Duff of His Majesty's 89th. Regiment having applied to us for an advance of one thousand Pagodas for the subsistence of the Detachment of that Regiment under his Command, we have advanced the same, and agreable to your desire have taken a sett of Bills of Exchange drawn by him for the same on Major Hector Munro at Bombay, the first of which is enclosed.

The Windsor arrived here from Bengal at the 14th. of last Month, and as the time which must be employed in landing the Consignments for the squadron would advance so far in the season as to render her Passage round to your Coast in the common Track impracticable, and by the Southern Passage she could not arrive in time to be of any assistance to the Ships of this season, we have therefore taken the Liberty to land the two hundred Tons of Salt Petre on board her consign'd to your Presidency which will enable us to dispatch a ship to Europe in August, and a further supply from Bengal may reach you in time to be as usefull in your next Dispatch as this could have been, had we not taken this ship of which we have advised the Gentlemen there and hope you will deem these Reasons sufficient We have opened the Packet for your Honor &ca. by the Windsor to take a Copy of the Invoice and forward it herewith.

The Company's Supra cargoes in China have acquainted us that they have of late been subjected to many Difficulties and unfriendly usage at Macao and have desired us to represent the same to the Vice Roy at Goa, We have accordingly address'd a Letter to him on that subject which We enclose under a flying Seal for your Perusal as also a Copy of what the Supracargoes write us on this subject, requesting that you will be pleased to cause our Letters to be forwarded and support it by one from yourselves if you shall see proper.

To the Honble Henry Van Sittart Esqr.

at Fort William.

Honble Sir & Sirs

We have received your several Letters by the Clinton, Houghton, Grampus Sloop & Snow Leopard dated the 10th. & 14th. of February & 4th. of March also one by the Fort St. George of the 17th. of March, with that of the 10th. of February ℔ Clinton came the Packet from England for this Presidency by the Earl of Ashbumham.

The Supra Cargoes at Canton having wrote to us very pressingly for an early supply of Treasure this season we shall dispatch the Houghton thither in a few days with five Lacks of Rupees, and with the assistance lately received from your Honor &ca. we hope to be able to furnish them to the amount of sixteen or eighteen Lacks for the Occasions of this year's shipping.

The Greyhound Snow will proceed to the West Coast with a part of the Stores for that Presidency as you recommend & the rest forwarded by the earliest opportunity The Articles you cannot spare to compleat the West Coast Indent for Medicines shall be supplied from hence as far as we are able.

The Windsor did not arrive here until the 14th. of last Month, and as the time which must be employed in landing the Consignments for the Squadron would advance so far in the season as to render her Passage round to the other Coast in the Common Track impracticable, and by the southern Passage she could not arrive in time to be of any assistance to the Ships of this season we have therefore resolved to land the two hundred Tons of Salt Petre on board her consigned to the Presidency of Bombay which will enable us to Dispatch a Ship to Europe in August and a further supply from you to Bombay may reach them in time to be as useful in their next Dispatch as this could have been had we not taken this step. After the Dispatch of our August Ship we apprehend we shall again be left very bare of Salt Petre even for the making of Gunpowder we therefore request your Honour &ca. will please to make what Provision you can for us.

The Bills of Exchange you drew on us as advised in your Letters of the 14 of February were not dated, they have nevertheless been duely honour'd as well as that mention'd in yours of the 17th. of March, If you could in your future Drafts settle the rate of Exchange instead of leaving it to the Curr^{t}. Course here it would be much better, because whilst Rupees continue here so scarce as they are at present it is in the Power of any Person here to raise the nominal Rate of Exchange or what is call'd the Buzar Rice many ℔ C^{ts}. in one day by only intimating a Necessity or intention of purchasing a sum and although not a Rupee perhaps may be bought or sold at that nominal Exchange yet it passes as the Curr^{t}. Price and may involve us in Disputes with the Bill holders, however if you should find it difficult to settle the Exchange we must do it in the best manner we can

The Grampus Sloop shall be returned to you on the arrival of the first ship from Europe, with the Packet from your Presidency as you desire.

It is with great Concern we acquaint you that by private Advices from Canton dated the 8th. of January we learn that our Honble Master's Ship Elizabeth was destroyed by Fire, as she lay of Linting Bar and that the Captain, second Mate & thirty more perished in her, Five other Ships were laying there at the same time homeward bound, and two remain'd at Canton which were to be dispatch'd in a few days.

Having great occasion for a Quantity of Paper to make into Musket Cartridges, this is purposely to request that you will by the first Opportunity supply us with twenty thousand Quires, Or, if you should not have so much by you that you will cause that quantity to be made and forward it to us by December or January, The proper Paper for this use is of a tough Nature not to be subject to break, and though thin it should be so well manufactured as not to admit of any of the Grains of Powder passing through it, which is too frequently the case in the Paper made in this Country, We request your Honor &c^{as}. particular attention herein as our Musket Ammunition is often unfit for use although made up but a very short time.

No. 39.

To Messrs. Thomas Fitzhugh, Samuel Blount, Nathaniel Garland, Alexander Hume, Benjamin Torin, Thomas Smith & William Rous, Supra Cargos Resident at Canton.

Gentlemen

We have received your Letter of the 8th. November 1762 and a Duplicate of the same with an addition without Date, we at the same time with the last, received a letter dated the 20th. of December from the Gentlemen then of Council at Canton our Answer to both is with Propriety we believe address'd to you.

We are sorry to find that the Ship Grosvenor had not reached you at the Date of the above Letters we address'd you by her the 10th. of September and now enclose a Duplicate.

We could have wish'd that the Exigency of affairs at Manilha had not necessarily demanded the detention of so much of the Treasure originally intended for China, but it was not in our Power to supply that service otherwise.

We are very sensible how important a Branch the China Trade is to our Honble Masters, and shall therefore contribute at all times our utmost endeavours towards the Promotion of it. The Gentlemen at Bengal having consign'd to us five Lacks of Rupees with this Assistance we shall certainly consign to you this season at least fifteen Lacks were silver procurable, we should encrease the sum very considerably but the scarcity of that article is such that we dare not give you any assurances of a larger supply, although we are not without hopes of collecting two or three Lacks more before the Departure of the latter ships.

By this Ship the Houghton which arrived from Bengal the 6th. of last Month we consign to you five Lacks in Treasure together with some Cotton and a small quantity of Redwood agreable to Invoice and Bill of Lading enclosed herewith, you will also receive a Packet from the President & Council of Fort William.

The Osterly not being able to gain her Passage to China from Manilha returned to this Place in January we have sent her to Bengal on particular service & after her return shall dispatch her to you as early in the season as possible.

The Cotton sent to you last Year having been transhipped from the Royal Captain to the Essex & Osterly without being landed, the Weight of it could not be ascertain'd that which you will receive by this ship was the Portion intended last year by the Osterly.

The Redwood which makes a part of the Houghton's Invoice was laden before the receipt of your Letter of the 20th. of December, wherein you represent the Market to be over stock'd with that Article and we shall therefore desist from sending any more untill your further advices.

We shall observe the Precaution you recommend of having Birds Nest packed in Chests to prevent it from breaking if we should have a further supply of that Article to send you.

We have directed the Gentlemen at Manilha to assist you if they should have it in their Power with the means of transporting thither the Bale Goods intended for Sooloo which you recd. by the Royal Captain as you inform us they are not vendable at Canton, but we must refer to what they may write you on this subject.

Messrs. Dalrymple and Kelsall returned hither in the London from Sooloo the latter end of March having by the non-arrival of the Royal Captain and other Accidents been prevented from fullfilling the Intention of the Voyage. They however judged it expedient to enter into a new contract with the Sooloos in consequence of which we purpose directing one of the ships destin'd for China this season to call there and receive the Goods they have agreed to provide.

The Tilbury sail'd from Bengal for Europe towards the end of December, and the Drake & Hardwicke the 3d. of March, The Earl of Ashburnham and Royal George were to follow in all that Month. The Clinton being arrived here is now under dispatch for Europe.

The Walpole was unfortunately taken off Ceylon in the month of September by a Squadron of French ships consisting of the Vengeur of 64 Guns, The Conde of 50 and the Fidelle Frigate of 18 Guns, They afterwards took their

Station off Ballasore Road towards the end of December where they continued till the middle of February without doing further Damage than taking two or three Country Vessels and retarding the Departure of our shipping.

We have in consequence of your desire address'd the Vice Roy of Goa on the subject of your Complaints should we receive any answer before the Departture of the latter ships we shall not fail to communicate the same to you.

but as there are no particulars of these Disbursements but your Accounts referring to Notes and Papers not transmitted to us, they are unable to make—any

particular Remarks and consequently you cannot have our orders fully; You must therefore be careful in future that your accounts express so clearly the Nature of every particular.

Disbursements that we may be able to form a Judgement which are necessary, and which not.

The Committee of Accounts remark that the Marines when acting on Shore received Subsistance the same as the Soldiers belonging to the Company's Troops you will therefore order your Paymaster to send us proper Pay Rolls expressing the particular Names both of the Officers and Men, the Sum each recd. and the Ship they belong to. We mean their Pay only not their Batta or Diet.

Lieutenant Richbell was included among those Officers for whom Major More recd. the Amount of their Passage Money, we should suppose that Major More has accounted with that Gentleman had we not seen a Note drawn by Mr. Richbell for eighty Rupees on that Acct. this money must be repaid into the Company's Cash, and you will please to make this known to the Commanding Officer of the Regiment, that the necessary Enquiry may be made whether the Error is on Mr. Richbells' side, or whether Major More omitted to pay him.

Gentlemen

As the purport of the Advices received from you will be particularly reply'd to in a seperate Letter it is only necessary to acquaint you here that your Indents are now complied with by the Ships Houghton and London as far as the several Articles can be spared from our Stores no part of the Woolen Goods can be sent you untill we receive a supply from Europe which we may shortly expect.

It being necessary that the Houghton should arrive in China as early as possible with the Treasure she has on board consign'd to the Supra Cargoes, you will on no account detain her longer than may be indispensably required for landing the seapoys and Stores, and we must also enjoin you not to detain any of her Treasure unless upon the most pressing Emergency, as it cannot fail of being a very great Interruption to the China Investment should you be able to supply the supra cargoes in China with Treasure you will advise them by this ship of the amount.

The Royal Captain having missed the Island of Sooloo last Year and carried to Canton the Bale Goods intended for the former Place, which the Supra cargoes write us are not saleable at Canton, if it should be in your power to assist the supra cargoes with the Means for having them conveyed to Manilha we recommend to you to do so concerning which you will write them by this Conveyance and in that case you will dispose of them to the best advantage for the Company.

We shall dispatch the Honble Company's Ship London to Sooloo, where she may probably remain till the end of August, and then she is to proceed to you to be repaired, which you will cause to be done as compleatly as may be, and

she may then be employed on whatever service you may deem to be most for the Company's Advantage. In case you should have no occasion for her services she is to be return'd to us.

Enclosed is a Manifest of Cloathing and Medicines in the Houghton on Account of His Majesty's 79th. Regiment which you will cause to be delivered to the proper Officers or receive under your care, if they should not be on the spot to take charge of them.

Since writing the above Admiral Cornish is arrived here with his Majesty's Squadron and we have received your Advices giving an Acco^{t}. of your Transactions untill the departure of the Squadron.

We observe you have drawn upon us Bills of Exchange to the amount of Pagodas 49092–,,–2 which we shall honor as they are tender'd.

We must repeat our Injunctions to you not to detain any of the Houghtons Treasure consign'd to Canton, also to land the Stores for Manilha with the utmost Expedition that the Ship may not be kept a moment longer than is necessary as her early arrival in China is of very material consequence.

By the next ship dispatch'd to you we shall send a supply of Treasure with such Remarks on your Books and Papers as shall appear necessary.

We have received a Letter from the Court of Directors by the way of Alleppo dated the 30th. of November 1762 giving advice that a Cessation of Arms was declared between Great Britain, France and Spain the 26th. of that Month, and enclosing Copies of His Majesty's Proclamation thereof a Copy of which is herewith transmitted with Copies of the 4th. 5th. & 6th. I need not Observe to you how necessary it is for you to exert yourselves in faithfully executing your Engagements, Your own justice will point that out to you and you must be sensible the Ship cannot make a long stay at Sooloo, as the Soldiers which she is to carry are wanted at Manilha & as the Ship must then go to China

To the Honble Roger Carter Esqr.
President & Governor &ca. Council
at Fort Marlborough.

Honble Sir & Sirs

We have received your several letters dated the 22d. & 23d. of September and 18th. of October last.

The Gentlemen at Bengal not having an opportunity of conveying to you from thence the several stores you indented to them for, sent a part of them hither on the Clinton We therefore now forward them to you by the Snows Greyhound &ca. Leapard with such parts of your Indents to us as we can at present send according to the respective Invoices and Bills of lading enclosed & as they also acquainted us that they could not fully comply with your Indent to them for Medicines we have agreeably to their desire compleated it here. These Vessells being too small to carry over any Cattle, we must defer supplying you therewith till a more convenient opportunity.

The Greyhound Snow being intended for the service of your Presidency we have given directions to the Master to remain under your Orders—Mr. George Scott who arrived here from Bengal in the Houghton now proceeds to his station at Fort Marlborough in her. We have referr'd the Master to you for payment of his Passage.

Mr. Randolph Marriot returned here from Batavia in September last, and paid in a Ballance remaining in his hands of Pagodas 449–28 he at the same time delivered to us a Bar of Gold which having been assay'd we have carried the value thereof with the Ballance abovementioned to the Credit of Fort Marlborough as you will observe by our Account Current with your Presidency enclosed.

Mr. Marriot at the same time represented to us that having applied to Mr. Baars the Dutch Resident at Cuddalore for payment of a Bill of Exchange drawn upon him & Mr. Camper of Negapatam from Batavia for Pagodas 250 he protested the Bill on account of the non arrival of a Vessel belonging to Mr. Bourchier and others. We encloses the said Bill of Exchange with the Protest for non payment that you may take proper measures for recovering the amount at Batavia.

We received a Letter from the General & Council at Batavia dated the 1st. July 1762 in answer to that we wrote them by Mr. Marriot concerning Natal and Tappanouly, and the seizure of English Vessells on the Coast of Sumatra—Copy of their Letter & of the letters therein referr'd to are enclosed.

The Court of Directors having in their Letter dated the 2d. of April 1762 advised that an Exchange of their servants belonging to the West Coast Establishment who gave Paroles not to serve against the French during the present War had taken Place, and enclosed the Certificates they had received in consequence. We now forward the same to you pursuant to their Directions with Extracts of such parts of their Letter as relate thereto.

The Certificates you advise in your Letter of the 22d. September to have granted for money received into the Honble Company's Cash at Fort Marlborough have been duely paid.

In consequence of what you write us in your Letter of the 23d. of September last concerning the Sum of Dlrs. 260 – 80 received into Cash at Fort Marlborough in 1758 on account the Estate of Mr. John Gray deceased We have order'd it to be paid here to Mr. Forrest's Attorney, and shall debit your Presidency for the same.

Having several Blacks in Confinement for Crimes, we have embarked them on board these two Vessells agreeable to a List inclosed, and recommend to you to employ them at the Plantations as a means to prevent any further bad Effects of their Idleness.

We have not any particular service to propose by your dispatching the Plassey to Manilha and must therefore leave it entirely to your determination.

The Houghton sailed hence for China the 26th. of May, by her we Consigned 5 lacks of Rupees to the Supracargoes there, and the Gentlemen at Bombay having sent round to us the Hector and Britannia We shall by those Ships consign to them a further supply of six lacks.

To Thos. Heath Esqr.
Chief at Vizagapatam.

Sir

Having appointed Mr. John Smith to succeed you in the Chiefship of Vizagapatam, He now proceeds in the King of Prussia Snow with Messrs. Stratton & Smith who we have already acquainted you are to be of Council, & you are to deliver over the Charge of the Settlement to Mr. Smith as soon as conveniently may be after his arrival.

It will be necessary that you explain to Mr. Smith the steps which have been taken with your Merchants regarding the Investment, & we shall now give some further directions on that subject.

It is our intention that as nearly as possible the same General Plan be pursued in all parts in the Provision of the Company's Investment. These General Rules are to be observed, vizt. That the Contracts with the Merchants for the Year's Investment commence the 1st. of February and end the 31st. of January of the next Year, that two Periods be fix'd for the delivery of the Cloth contracted for, that is to say, One part before the first of August, and the remainder before the 31st. of Jany. That twenty five ℔ Ct. be advanced to the Merchants on the value of the Goods they Contract to provide in the whole Year (if you think them responsible Men) which advance is to remain in their hands untill the Conclusion of the Contract, that the Cloth they bring in from time to time be paid for as it is sorted & accepted, and that the advance be accounted for in the last Parcels of Cloth brought in before the 31st. of January. The Merchants accounts are then to be closed, and if the Cloth received should not amount to the full value of the advance the Ballance is to be paid in ready money, and a new Contract & advance may then be made for the succeeding Year. It shou'd be a Clause in the Contract with your Merchants that all the Cloth which shall be turned out as being inferiour in Quality to the Muster shall pay a double Duty to the Company, unless we should agree to take it at an Abatement proportionable to the inferiority of the Quality, and the same Duty must be paid on all Cloth rejected on account of deficiency in length or Breadth which must never be taken in at any abatement whatever, some part of these directions have been sent you before but we repeat them here that you may see at one view the Plan we wish to establish. Pursuant hereto all the Goods that may have been deliver'd in by your Merchants before the 31st. of January last must be deem'd the Investment of last Year, and their accounts must in manner above directed be adjusted to that time, & such Goods as you have and may receive afterwards must be reckon'd a part of this year's Investment.

Enclosed you will receive a list of Goods to be provided by you for the year Commencing the 1st. of February and to end 31st. January 1764 the directions in which must be attended to as strictly as possible.

You will receive herewith the Remarks made on the Goods you have sent up, which must be attended to in the future provision of the Cloths, and inform us how much cloth we may expect to receive by September.

No. 69.

To MR. ALEXR. DALRYMPLE.

SIR

The Ship Royal Captain being so unfortunate as to lose her Passage to Sooloo last Year, lays us under the necessity of sending the Neptune thither and of troubling you to go in her, that we may be assured of the Company's affairs there being managed in the best manner they can be under the Circumstances they now stand.

The Gentlemen at Manilha have inform'd us they intended to send to Sooloo a Sloop with the Sultan's son & the Cargo the Royal Captain carried from hence last Year If these Goods are not deliver'd before your arrival it must be left to your discretion whether they shall be included in the late Contract or otherwise disposed of and if either by this or any unforseen accident it should be necessary to leave a Ballance at Sooloo you will engage the Natives to procure Sago, Mother of Pearls & Birds Nest for that amount for one of the Company's ships which will be ordered to call at Sooloo next season in her way to China & you may acquaint the Sooloos that they may load on her at Freight Swallow & such gruff Goods at their own Risk but none are to be receiv'd on the Company's Accot.

You will embrace the opportunity if any offers of setling the Sultan's account but if it cannot be done at present without difficulties you must give us the most particular Information of the measures proper for this end.

We shall give directions that the London convey to Sooloo the former Sultan from Manilha and you may make Provision for a Cargo of Cowries, Sago, Mother of Pearl & Birds Nest for her.

The remains of the Musters which were not received at the London's departure must be transported to Canton & if you can obtain any other Specimen you are to do so.

We permit the amount of the goods licensed to particulars last year and which were left behind at Sooloo to be laden on the Neptune for China & have also allowed Mr. Kelsall to send a Bale of Chints which was return'd from Sooloo.

You must be particularly attentive & on no Consideration to detain the Neptune so long at Sooloo as to make her arrival in China even precarious we therefore think it necessary to limit her Departure to the 15th. Sepr. at farthest.

You are permitted to call at Abai to take on board the Man left there for an Interpreter to the Royal Captain and if you meet the Goa Ambassador you will inform him that the Treaty concluded last Year if the Sultan approves of it shall be transmitted to the Compy.

Captain Steward has been paid one hundred Pagodas for your Passage to Canton.

When you have compleated affairs at Sooloo you are to dispatch the Neptune to China & give in charge to the Captain the Packet herewith deliver'd you to the Supracargoes at Canton directing him for to follow their orders for his further Proceedings.

The Captain has been appriz'd that he is not to carry on any Traffick at Sooloo on account of his Priviledge.

Honble Sir & Sirs

Our last to you was dated the 1^st^. Inst. We have since receiv'd your favors of the 4^th^. of April & 16^th^. May.

The Deptford is arriv'd & shall shortly be dispatch'd to you.

We shall regulate our Conduct in respect to the Ships to be return'd to Europe with your Investment agreeably to your advices of the 16^th^. of May or as nearly thereto as we can, in the mean time we think it proper to communicate to you our present Ideas of the Disposition which probably may be made of the Shipping in all parts.

We think it will not be necessary to send any of the Year's Coast & Bay Ships to China in the room of the Osterly and Boscawen as we reckon fourteen ships may arrive there besides them viz^t^.

Havannah.	From Europe this year.	China Directly.
Egmont.		S^t^. Helena & China.
Cruttenden.		Bencoolin & China.
Glattion.		Coast & China.
Pocock.		
Neptune.		
Hawke.		
Falmouth.		

Grosvenor of last Year Coast & China.

Coast & Bay ..	Houghton	remaining in India of last years ships and dispatch'd this season.	China.
Bombay ..	Britannia		
Do. ..	Hector		
West Coast ..	Valentine		
	Earl Temple	sent from ye. West Coast to refit at Manilha & thence for.	China.

These fourteen ships we imagine will be fully sufficient for all the Goods that can be provided in China this season.

The Ships expected to be on this side of India are ten in Number viz^{t}.

Osterly, Boscawen } Now at Bengal.

Admiral Pocock dispatch'd from Bombay for this Place & Bengal.

Plassey arriv'd
Deptford Do. ..
Lord Clive
New Ship Pigou } expected
New Ship Rich^{d}. son
} from Europe for Coast & Bay.

Lord Mansfield, New Ship Maitland } from Europe for Bombay & thence for Coast & Bay.

The two last Ships our Honble Masters inform us they intend to dispatch to Bombay so early as they may be sent round to us this Season & that they are then to be deem'd Coast & Bay Ships & are to be provided for accordingly. Out of these ten ships you advise us that you shall have Cargoes for five & we think these may be the ships viz^{t}.

Osterly
Boscawen
Deptford
Lord Mansfield
New Ship Maitland

We shall accordingly write the Gentlemen at Bombay to dispatch round the two last mention'd as soon as possible after their arrival there.

We shall dispatch one ship from hence in September & we keep the Plassey for that purpose, as in course of her arrival she will enter first on Demorage. We think we may besides provide about two hundred Tons of Bales for a March Ship but concerning this we shall advise you further hereafter.

The Admiral Pocock we propose to send to Manilha that she may be their [*sic*] in readyness to assist in withdrawing that settlement, and as we are inform'd, Cotton is in no demand with you, we shall send to China the Cotton on board the Pocock consign'd to you, which we hope you will approve & we have taken the liberty to open the Packet address'd to you from Bombay by that Ship to take out the Invoice of the Cotton the amount whereof we shall put to your Credit.

According to this disposition there will remain three Ships on this side unprovided for, these may probably be dispatch'd to Manilha to bring away the Company's servants & Effects should the Receipt of the Definitive Treaty authorize such a measure & their arrival in time render it practicable otherwise they must proceed to you.

Your Honors &c^{a}. will perceive that many things may happen so as to break this Disposition, in any such case we shall give you as early Notice as possible.

The third Copy of your Advices to Europe by the Royal George & Ashburnham shall be forwarded by our September Ship and the fourth Copy by one of King's Ships to be dispatch'd from hence.

In your Letter to us of the 10th. of February 1763 We find this Passage "By the Houghton you will receive all her own Consignments excepting 100 Bar^{s}. of Gun Powder and five Pipes of Madeira Wine " And in your subsequent Letter of the 14th. of February you say " At the desire of Major Adams we have landed from the Houghton, the *three* Chests of Medecines which were Consign'd to *the King's Hospital at your place*." It does not appear by the Manifest that any Medicines were laden on the Houghton for the King's Hospital at this place and Captain Rogers affirms that there were not any. By the Company's Invoice it appears there were two (not three) Chests of Medicines consign'd to us, and Capt. Rogers informs us that he deliver'd to you those two &

no more, however as your advices are particular We could not do otherwise than deem the two Chests deficient referring it to be clear'd up by your future advices, We beg therefore you will be pleased to give us more particular Information concerning this matter.

Honble Sir & Sirs

With our last dated the 2d. Instant per. Pattamar of which Duplicate comes enclosed we forwarded a Packet receiv'd from Europe by the Plassey for your Presidency. We now send you that received by the Falmouth & have the pleasure to aquaint you that the Deptford arriv'd here the 15th. and his Majesty's Ship Liverpoole the 18th. Instant.

The Admiral Pocock imported the 26 Inst. and brought us your favor of the 26 Ultimo.

The Boscawen & Osterly being unable to get out of the River of Bengal the Gentlemen there intend to dispatch them to Europe from thence, and as we shall have several ships on hand this year we purpose sending the Admiral Pocock to Manilha that she may be there in readiness to assist in withdrawing that Settlement when News shall be receiv'd of the Definite Treaty having taken place and as we are inform'd that Cotton is in no demand at Bengal, we shall send that, you consign'd thither by the Admiral Pocock to China in the Falmouth now under dispatch.

Our Honble Master's having inform'd us that they intend to dispatch the Lord Mansfield and a New Ship Maitland, to Bombay so early as that they may be sent round to us this season, and that they are then to be deem'd Coast and Bay Ships, and are to be provided for accordingly, and as they will probably be of the Number intended to be dispatch'd home from the Bay, We are to request you will send them round to us as early as possible after their arrival with you.

It is certain that the Company will sustain a Loss if our detention of the Salt Petre intended you by the Windsor should oblige you to keep a ship on demorage, but as we should not have been able without that Assistance to have dispatch'd home a Ship in September, in either Case one Ship must have lain on Demorage and it is the same thing whether the Loss is incurred here or with you. This however was not our motive for landing it here our reasons are explain'd fully in our letter of the 7th. of May.

We have taken the opportunity of sending a supply of Rice to Fort Marlborough by the Ship Prince Henry and Luconia Snows and they will proceed thither in a day or two.

The Hawke received her Dispatches for China the 20th. Instant.

Since we wrote to you by the Snows Greyhound and Leopard the 20th. of June we have receiv'd your Letter dated the 10th. of February.

Our Honble Masters Ship Prince Henry Packet and Snow Luconia having been directed to call here in their way from Bombay to your Presidency to land a Detachment of his Majesty's Troops we take this opportunity of conveying to you a further supply of Rice for the use of your settlement and enclosed is an account of the Money advanced and Stores supplied these Vessells respectively.

Samples of the Gold you advise in your Letter of the 20th. Febry. having been forwarded to us from Mr. Herbert at Batavia We have had them assay'd here and paid the conditional Certificates for the same according to their produce in our Mint. For further particulars we refer to the Copy of the Assay Master's Report and Calculates of the same with the Minutes of Consultation thereon which are enclosed.

We have duely honor'd the two setts of Bills you have drawn upon us for Pagodas 553–26.

Mr. Herbert advices us that the Repairs of the Earl Temple having been absolutely refused at Batavia he purposed dispatching her to Manilha in time to save her Passage this season to—China, in which case we hope the Consignments of Treasure we have made this season to the Supracargoes, will enable them to provide her with a Cargo for Europe.

We take this opportunity of sending over to you another Delinquient [*sic*] by Name Mootoo whom we recommend to you to employ in the same manner as those who were Embark'd on the Snows Greyhound and Leopard.

We have the pleasure to acquaint you that since our last the Honble Company's Ships Plassey, Falmouth & Deptford and his Majesty's Ship Liverpoole from Europe are arrived here.

Gentlemen

We have receiv'd your Letter of the 26 Ultimo.

By the Representation of your Merchants which you have transmitted to Us we observe that the dearness of Cotton is their pretence for not having fulfill'd the Terms of their Contract for the Investment, Allowing this in some measure to have been the case, it could be no excuse for such Cloth as they did bring in to be short of Measure and so Inferiour to Muster that the greatest part of it has been rejected, and as it appears they have been so very backward in their endeavours to fulfill their Engagements. We now direct that you receive all the Cloth they can bring in and if they still declare that they cannot perform their Contract, they are to pay in their Ballances forthwith and you may assure them that a Publick Example will be made of them and their Families. for abusing the Confidence placed in them in this Material Branch of the Company's Affairs.

Honble Sir & Sirs

We acquainted you in our Letter of the 18th. of June that we should forward to you by the first good opportunities the Bales of Woollen Goods for your Presidency, which our Honble Masters advise us they shall send out this Season on the Coast Ships. By the Plassey they have Consign'd to us

Broad Cloth		424 Bales
Long Ells		76 do.
		500

five hundred Bales which we have ladden, and Consign'd to you on the Ship Winchelsea, Capt. Thomas How as ℔r. Invoice & Bill of Lading enclosed These Bales were carefully examin'd here when they were landed from the Plassey, and the damage adjusted with the Commander of that Ship agreeably to Charter party, which Account we shall transmitt to Europe that the Amount may be settl'd there between the Company and the Owners, The Particulars of the damage & state of the Bales as they were then found will appear to you by a paper inclos'd singn'd by our Import Warehouse keeper so that if on landing the Bales any further damage should be found the Commander of the Winchelsea is to be answerable for the same.

Our Honble Masters Ship Deptford being here and it appearing to us that she had on board 508 Bales Consign'd to the Presidency of Bengal but to be forwarded to you in like manner as those abovemention'd which were Consign'd to Us, We have caus'd them to be transported on board of the Winchelsea and Capt. How having receiv'd them all as sound should any damage appear on these, he is answerable for the whole, as these Bales are not consign'd to us we cannot send you an Invoice of them neither have we brought them on our Books, but we shall write to the Gentlemen at Bengal to adjust this Consignment with your Presidency in the same manner as if the Bales had been actually recē'd there and consign'd to you from thence.

The Winchelsea being Freighted from the Company for a certain term we have agreed with the Freighters & Commander for the abovemention'd Consignts. at the rate of two and half Pagodas ℔ Bale to be paid by you on delivery thereof at the Exchange of 330 Bombay Rupees ℔ 100 Pagodas.

The Bales being transfer'd from the Deptford to the Winchelsea without landing here the account taken between the two Ships makes the number to 512 Bales, but as it appears by the Abstract of the Invoice which the Court of Directors have sent us, that no more than 510 were Consign'd and of them Capt. Tryon informs us two were return'd being damag'd, We have taken a Bill of Lading from Capt. Howe for 508 and given Capt. Tryon a Receipt for that number only if more should be deliver'd to you the Cause will probably be explain'd to you by the Gentlemen at Bengal to whom we write on this subject.

By the Hawke and Falmouth we receiv'd two Packets for your Presidency which have been forwarded by separate Pattamars. The Deptford also brought one which we send to you by this opportunity.

To the Honble Henry Vansittart Esqr.
President and Governor &ca. Council
of Fort William.

Honble Sir & Sirs

The Deptford having deliver'd her consignments for this Place now proceeds to you agreeably to her Destination.

Our Honble Masters inform us that for want of Room in the Bombay ships of this Season they should send a great part of the Woollen Goods intended for that Presidency on the Coast and China and Coast and Bay Ships, the Winchelsea touching here in her way to Bombay. We have taken that opportunity

to Freight on her 500 Bales which we receiv'd by the Plassey, at the same time it appearing to us by an Abstract of the Deptfords Invoice for Fort William, that there were Woollen Goods on board which Cap^{t}. Tryon inform'd us were intended for Bombay, We thought it best to send those also by the same Conveyance, and they have accordingly been laden on the Winchelsea the Freight is to be paid at Bombay at the rate of 2½ Pagodas ℔ Bale Exchange at 330 Bombay Rupees ℔ 100 Pagodas.

By the abovemention'd Abstract of the Deptfords Invoice for Fort William it appears that the Consignment to you consists of

509 Bales of Broad Cloth &
1 D^{o}. Long Ells

510

but Cap^{t}. Tryon informs us that two of these Bales were return'd being damag'd so that there sho'd be only 508 Bales, but the Bales having been transported from the Deptford to the Winchelsea without being landed, the account taken by the two Ships makes the number amount to 512 This probably is a mistake, We have however advis'd the Gentlemen of Bombay thereof but have given Cap^{t}. Tryon a receipt for no more than 508 and taken a Bill of Lading of Cap^{t}. Howe for the same number & we beg when you deliver Cap^{t}. Tryon his Bill of Lading discharg'd that you will receive from him our Import Warehouse-keepers Receipt, Altho' we have forwarded the Deptfords Bales yet as they were not consign'd to us We have not brought them on our Books but have wrote to the Gentlemen at Bombay that they will receive the Invoice from you and pass them to account as you shall advise.

By the Neptune our Honble Masters consign'd to us 500 Bales of Cloth 1 Bale of Camblets & Allepins & one Case of Brocades to be forwarded to you and we accordingly now consign the same to you by the Deptford except only one piece of Brocade which we have taken the liberty to keep, the damage these Goods suffered in the passage from Europe has been adjusted with the Captain of the Neptune an account where of is enclosed sho'd any further damage appear on your receit of the Bales Cap^{t}. Tryon is to be answerable for the same.

As it is our Intention to dispatch the Plassey to Europe in October We have landed from her the Consignment to your Presidency and shall forward the same to you as Conveyances offer, such part as we now send by the Deptford will appear by a list in the Packet the Europe Invoice of them have been already forwarded to you. We cannot bring them on our Books you will therefore be pleased to inform us in what manner you bring them on your Books, if to the immediate Credit of Account Current London We shall not have occasion to make an Entry, if to our Credit you will then be pleased to send us a Copy of the original Invoice that we may pass them in Conformity, We consign to you by the Deptford a quantity of Redwood agreeable to Invoice & Bill of Lading enclosed.

As we cannot at present supply you with any Timber or Plank as you desire in your Letter of the 4th. of April We have directed the Gentlemen at Manilha to send us all that can be procured, being also greatly in want of the same Articles for our own occasions. We have ordered some Coir Cables of the sizes you desire to be made not having any Europe in Store.

M^{r}. Croke who came out with his Family this Year with permission from our Honble Masters to reside at Calcutta has requested that he may remain on the Coast being in an infirm state and finding the Climate agree with his Constitution. We enclose Copy of his letter to us on this occasion and desire you will aquaint us what the Company have been pleased to write concerning his Gratuity or any thing else that may be necessary for our information.

The Bill of Exchange for Ars. 10511.4 advis'd in your your letter of the 17th. June has been duely accepted and paid.

We have the pleasure to acquaint you that the Lord Clive arriv'd here the 13th. Instant she left England the 26th. March, the rest of the ships for Coast & Bay were expected to sail about 3 Weeks after.

HONBLE SIR & SIRS

Our last to you was dated the 16th. of August of which Duplicate accompanies this.

The Gentlemen at Bengal in the last Advices we receiv'd from them on the subject of shipping dated in May acquainted us that they expected to be able to provide Cargoes for five ships this season, of which the Boscawen & Osterly were to have been two and as we judg'd that the Lord Mansfield and new Ship Maitland destin'd first to your side might have been of the Number, we therefore desir'd in ours of the 31st. of July that they might be sent round to us as soon as possible after their arrival with you at that time we thought that three of our ships might have been employ'd from hence to Manilha to assist in withdrawing that Garrison upon receiving News of a Peace—but as other Measures have been since resolved upon for that purpose We shall dispatch them to the Bay agreeably to their Destination considering at the same time that the late Troubles which have arisen in Bengal may possibly prevent the Gentlemen there providing for the number of Ships they before intended. We refer it to your determination whether it will not be most advisable to detain the Lord Mansfield & New Ship Maitland on your Side if you should be able to find Employment for them.

Mr. George Pitcairn who came from Bombay in the Hector having receiv'd his Allowances here for the Months of May, June & July. We enclose an account for the same for which we shall debit your Presidency.

You have been inform'd from the other Department of the arrival of the Lapwing, judging it necessary to return her to our Honble Masters with Advices she sail'd for England the 6th. Instant.

Honble Sirs

We wrote to you by the Pigot the 17th. Instant. The Swift Schooner from Bombay has since sail'd for your Presidency, and enclosed is an account of Provisions supplied that Vessel at this Place.

Having made a Calculate of the quantity of Goods wch. will remain in our Warehouse after the departure of the Plassey together with what we may reasonably expect our Merchants will bring in between this and the latter end of January we think we may venture to promise your Honor &ca. that we shall have Goods to make up about three hundred or three hundrd. and fifty Tons, if therefore your Honor &ca. will please to send us two Ships early in the Month of January reserving room in each for about 150 Tons We think we shall be able to compleat their Tonnage, and dispatch them in good time but we entreat you that these Ships may depart from Bengal by Christmass or very early in January, otherwise they may be unfortunate in their Passage and get as late from hence as the Warren & Clinton have the two last Seasons.

Should the affairs at your Presidency take that happy Turn we wish to them we hope your Honors &ca. will remember that a supply of Bullion as early as possible will be of great benefit to our Honble Master's China Trade, and we shall be glad whenever SaltPetre is procurable to be supplied with as large a quantity as your own demands and those of Bombay will admit of.

Gentlemen

We received your Letter dated the 9th. Ultimo by the Ship Union advising of your having sent us in her 216 Bales of your Investment. We are sorry to inform you of our having been totally depriv'd of that Consignment by the Loss of the Ship in a violent Gale of Wind on the 21st. of last Month which also proved fatal to many other Vessells at that time riding in this Road.

As you represent to us that you are in want of Cash for your Investment we have desir'd Mr. Pybus to suply you from Mazulipatam if possible for your present occasions.

Having reason to apprehend a great scarcity of Grain at this Place we must recommend to you very particularly to promote the Importation of it from the Countries in your Neighbourhood as much and as early as possible.

SIR

We have received your Letters dated the 7th. 20th. & 26th. of last Month.

The Cloths you sent up by the Success Snow having been examin'd, enclosed are the remarks which have been made thereupon, and to which you will be pleas'd to attend.

The Proposals you have transmitted to us for Renting some of the Northward Farms for the present Year having been examin'd We have accepted the following.

Gahin Labdien . . . for the Pettah Juncan at Rups. 24,000– –.

Rustum Allay Cawn & Meer Sait Hussein } Masulipatam & Ponraua Salt 70,000– –.

The only Proposals receiv'd for Renting the Narsapore Town were those accompanying your Letter of the 20th. Ultimo from Rajah Hary at Rups. 2100, the same Terms on which it was let the last Year. As we are inform'd he is a Pollygar who commands a considerable Force we should prefer giving the Rent of this Town to any other Person of Credit who should be inclin'd to take it on the same Terms, if however that cannot be done, you may let it to Rajah Hary as you represent him to be a Man of fair Character and who has been hitherto punctual in his Payments.

As we expect to have a Ship from Bengal early in January to fill up here for Europe, you will not fail to send us as large a quantity of your Investment as possible and to acquaint us how many Bales we may expect by that time. The Chief and Council of Vizagapatam having applied to us for a supply of Cash for their Investment you will be pleased to furnish them with as much as you can conveniently spare of the Ballance in your hands.

Having reason to apprehend a great scarcity of Grain at this Place we must recommend to you very particularly to promote the Importation of it from the Countries in your Neighbourhood as much and as early as possible.

Gentlemen

We have rece'd your Letter dated the 26^th^. of last Month with the Accounts and Papers enclosed.

In the Estimate you have transmitted to us of the expence in repairing the Company's Buildings at Vizagapatam, there are some that do not appear to us necessary, particularly the Hospital & Guard Houses, as it has never been our Intention to keep any considerable Garrison there. You have our permission to lay out as far as five hundred Pagodas in repairing the Godowns, and such other Buildings as are of immediate Consequence, to preserve them from decay.

The same reason makes it unnecessary also to give any particular directions on Lieutenant Smiths Report to you concerning Repairs to the Works & Military Stores required to put the Town in a State of defence. Your best security will be to maintain a good understanding with the Country Powers in your Neighbourhood, which must therefore be your constant and principal Attention—and if you should ever be in danger of an attack as it will be in vain to think of preparing to resist any Force of Consequence, you must secure the Company's effects & retire to Madras or Bengal as the Season may best serve, and remain always prepared as well as possible for such an Emergency.

Mr. Pybus is directed to supply you when he has an opportunity with some Barrels of Gun Powder principally intended for your small Arms and we shall furnish you from time to time with such other Stores as we have and may appear necessary.

We have a great demand for small Arms and our Stock is very small.

The remainder of your Indent for Stores shall be sent as soon as they can be spared.

SIR

We have receiv'd your letter dated the 27th. of last Month and enclose Cowles for the three Farms dependent on Mazulipatam which have been lately Relet as we advised you in our Letter of the 17th. Novr.

You will observe by the Cowle for the Salt Farm that we have assented to the Conditions proposed by the late Bidders Rustum Ally Cawn, and Meersaid Hussein although we cannot approve of their extending the payment of their Kists four Months beyond the expiration of the Cowle. If therefore you apprehend that this may in the end be productive of Inconveniences and you can obtain the same Rent it Let for last Year of 80,000 Rupees by extending the Term of the Cowle to three or five Years you have our permission to do so not-[with]standing our [. . .] Orders on this subject and in that [. . .] Payments [. . .] heretofore [. . .] and we should think that the extending the Farm to three or five Years might enable you to induce the proposer to take off the Quantity of old Salt you mention'd in your Letter of the 16th. Septr. to have taken Possession of as security for the Ballance due from Murseed Hussain & Timajee amounting by your Estimation to about 24,000 Rupees We are led to entertain this hope by your said Letter of the 16th. September last, as to the Ballance that may remain due over and above the said Salt you must use your best endeavours to receive it of those Renters.
